EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

Claims **1-9, 11-19 and 21-27** have been cancelled.

Claim **10**, line 1, the words "The method of claim 8," have been deleted and replaced with the words:

-- A method of crosslinking carbon nanotubes comprising:

(1) providing carbon nanotubes; and

(2) irradiating said carbon nanotubes with microwaves to yield a plurality of crosslinked carbon nanotubes;

wherein crosslinking is generated between the sidewalls of adjacent carbon nanotubes; and --.

Claim **20**, line 1, the words "The method of claim 19," have been deleted and replaced with the words:

-- A method of crosslinking single-wall carbon nanotubes comprising:

(1) providing single-wall carbon nanotubes; and

(2) irradiating said single-wall carbon nanotubes with microwaves to yield a plurality of crosslinked single-wall carbon nanotubes;

wherein crosslinking is generated between the sidewalls of adjacent single-wall carbon nanotubes; and

wherein the step of irradiating is carried out in an inert environment selected from the group consisting of ultra-high vacuum, high vacuum, inert gases, and combinations thereof; and --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim **10** is allowable over the prior art of record because the prior art does not teach or suggest a method of crosslinking carbon nanotubes comprising the steps of providing and irradiating as presently claimed, esp., wherein the carbon nanotubes are chemically functionalized prior to the step of irradiating.

Claim **20** is allowable over the prior art of record because the prior art does not teach or suggest a method of crosslinking single-wall carbon nanotubes comprising the steps of providing and irradiating as presently claimed, esp., wherein the single-wall carbon nanotubes are chemically functionalized prior to the step of irradiating.

The prior art does not contain any language that teaches or suggests the above. See the Board Decision dated July 3, 2008 (esp., pages 11-12). Therefore, a person

skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDNA WONG whose telephone number is (571) 272-1349. The examiner can normally be reached on Mon-Fri 7:30 am to 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
